Abstract

Hazma does many wonderful things.

Keywords: Dark matter, indirect detection

1. The Elsevier article class

Functionality. The Elsevier article class is based on the standard article class and supports almost all of the functionality of that class. In addition, it features commands and options to format the

- document style
- baselineskip
- front matter
- keywords and MSC codes
- theorems, definitions and proofs
- lables of enumerations
- citation style and labeling.

[☆] Code and tutorials available at github.com/LoganAMorrison/Hazma.
